503CD Divided Leg Podiatry Chair

503CDT Tilting Podiatry Chair

Entry level single motor chiropody/podiatry chair, extremely strong, stable and versatile being suitable for biomechanics and multi disciplinary use both in clinics and surgeries. This chair offers excellent access and patient comfort and is available with footswitch. Single leg version also available as Model 503C.

Features: unique lifetime guarantee, easy operation, low running costs, high density fire retardant foam, hardwearing anti-microbial vinyl, removable fold back arm rests, divided legs, extending and removable heel pads, able to lift 225kg from its lowest height, full choice of accessories and colours.

This twin motor chair is our most popular and has all the features of model 503CD but with the added benefit of trendelenburg seat tilt, greatly enhancing patient comfort and allowing the foot end to rise to a full 60° (153cm) for unrivalled access whilst doing heelwork or for operating when standing up. Recommended optional extras are motor back and foot switch. Single leg version also available as Model 503CT.

Features: unique lifetime guarantee, easy operation, low running costs, high density fire retardant foam, hardwearing anti-microbial vinyl, full trendelenburg tilt, removable fold back arm rests, divided legs, extending and removable heel pads, able to lift 160kg from its lowest height, full choice of accessories and colours.
